**465 North Ridge Circle, Roxboro, NC 27574**  
**336-599-1084 or 336-504-7223**

**2011 Price List Effective 07/01/11**

**Service Charges:** \$35.00 per hour for labor; \$50.00 per hour for lathe and milling work.

**Metal finishing:** All lettering and holes protected with all edges square; all pitting and blemishes polished out to customer's choice of finish: highly polished or matte.

**Rebluing** rate is \$20.00 per hour which includes disassembly, polishing, bluing time and reassembly. For example, a Remington 1100 or 870 typically runs about \$144.00; a Browning A5 or a lever action rifle runs around \$220.00; a single shot 22 rifle runs about \$120.00; a double barrel runs about \$220.00. The more heavily rusted and pitted a firearm is, the more it costs to polish it out so the price increases. Effective 7/01/11 a one hour charge will be added to all firearms to cover the production costs like fuel, bluing salts and polishing materials.

**Belgian Bluing:** The average set soft soldered double barrels runs about \$250.00.

**Parkerizing:** The average long gun runs about \$140.00 while a handgun runs about \$120.00. Garands, Carbines and M1A's are slightly more because they have more parts.

**Teflon-Moly:** Prices for these bake-on finishes are similar to Parkerizing since the metal preparation is very similar. These coatings offer superior protection since the metal is sealed against weather, grit and fingerprints.

**Wood Work:**

**Refinishing:** All old finish is stripped off, checkering protected and wood is sanded down to remove all blemishes. Oil or polyurethane is then applied in either a satin or glossy finish. An average stock runs about \$90.00 for an unfilled finish while a completely filled finish runs about \$120.00.

**Checkering:** Hourly rate; depending on the pattern, a buttstock and forend will average \$180.00.

**Stippling:** Hourly rate; a buttstock and forend can be stippled for \$60.00 to \$90.00, again depending on the pattern selected.

**Re-Cutting Checkering:** Most patterns will cost from \$60.00 to \$90.00.

**Recoil Pads:** Hourly rate; usually cost \$45.00 to \$60.00, not including pad.

**Install Sling Swivels:** hourly rate; usually about \$30.00.

**Glass Bedding:** labor only, \$60.00 for bolt actions; \$90 to \$120 for Garands/M14

**Other Shop Work Examples:**

Install and headspace pre-chambered barrel: \$75.00 to \$105.00, not including bluing.

Build AR15 type rifles with customer supplied parts: \$90.00 to \$150.00.

Firearm Maintenance: Includes detail stripping, inspection, cleaning & lube, \$45.00.

Install choke tubes: \$100.00 per barrel, labor only.

Thread pre-ban AR15 barrel for flash suppressor: \$60.00, not including suppressor.

Check Headspace: \$30.00.
